

犯罪三角關係

犯罪三角關係顯示構成犯罪的三個因素。

- 犯罪份子想犯罪；
- 犯罪份子心中的對象，以及
- 犯罪的機會。

不給犯罪份子機會，
你就可以切斷犯罪三角關係。

了解你周圍的人及事務，就可保持警覺並維持良好的判斷力。你能避免成為一個容易下手的目標。

記住！警覺是您安全的關鍵。

希望你身處安全的環境！
通過實行以下個人安全秘訣，
犯罪份子找到犯罪目標的機會
就會降低。

家居安全

- 當你在家時，鎖上你的門和窗戶。犯罪份子尋找最容易進入的房子。
- 安裝一個190度可視角度的門眼，讓你可以觀看門另一邊的不速之客。
- 在打開房屋外門之前，要知道是誰在門外。包括服務公司員工和其他來兜售東西不請自來的人都不能開門。
- 室外照明可以阻止不速之客，提供屋主額外的保護。定時器或光電電池會在早上和晚上自動打開和關閉燈光。

在街上隨時提高警覺

- 走路有自信，傳達出的信息是您是一個

大夏普斯堂管理區提供此份文件的翻譯經費

5-2

冷靜，信心，知道要去哪裡及瞭解週遭的事。

- 只在燈光明亮的街道行走，避免為要走捷徑而通過荒涼的地區。
- 盡量不要帶錢包，但是如果你必須攜帶，將它安全地帶在手臂下。不要將錢包帶子繞在你的手臂或為抓住你的錢包與小偷拔河，您可能會因此嚴重受傷。
- 避免大量的現金或貴重物品露白，如珠寶，服裝和包裹。
- 避免街頭賣東西者試圖以便宜的價格賣給你東西。如果聽起來好得不像真的，那麼它就不是真的。

汽車安全

- 將車子停在燈光明亮的地方，在遠處就可看到您的汽車及其周圍情況。
- 要開車前先將車鑰匙準備好，環顧四周，並注意您的汽車下面和觀察其他停在附近的車輛是否有可疑的人在附近。
- 進入車裡之前，要瞄一下車的後座和地板以確認沒有任何躲藏。
- 如果你覺得有人跟隨著你，不要開回家，將車開到附近的警察局，消防站，開

放的加油站，或燈光明亮有人可幫忙你的地方。

- 如果你的車壞了，拉起前面車蓋，在車子的門把上綁上白色的布條，表示求救的信號。回到車上，並將門窗上鎖。如果有人前來幫忙，請他們打電話給警察或拖車公司。不要乘坐任何人的便車。

公共電梯

- 如果你擔心有人等著你一起進電梯，你可假裝忘了東西而走開，不要走進電梯。
- 進電梯之前先看看裡面是否有可疑人士，如果有就不要走進電梯。
- 一旦進入電梯，站在電梯控制系統的旁邊並了解一下緊急按鈕。
- 如果有可疑人士進入電梯，就離開電梯。
- 如果你受到攻擊，按下報警按鈕，並盡可能按各層樓的按鈕。

工作安全

- 未經許可，不要將同事的電話號碼或地址給任何人。
- 在工作場所與同事談個人計劃必須謹慎小心。

Army Corps gives nod to \$31B 'Ike Dike' plan for Texas coast

By Nick Powell

After three years of study, the U.S. Army Corps of Engineers announced Friday that the so-called "Ike Dike" -- the 70-mile-long coastal barrier that could cost as much as \$31 billion -- is the preferred choice for protecting the Texas coastline from future storm surges.

The coastal barrier plan, developed in a partnership between the Army Corps of Engineers and the Texas General Land Office, is similar to the original "Ike Dike" proposal made by researchers at Texas A&M University in Galveston after Hurricane Ike devastated southeast Texas in 2008.

"One storm can cost many lives and billions of dollars in damage, so the expense of doing nothing far outweighs the investment to protect and enhance our coast," Texas Land Commissioner George P. Bush said in a written statement. "Texas' coast is home to one in every four Texans and 30 percent of the American oil refining sector resides here," Bush said. "The Coastal Texas Study is about protecting our people, our economy and our national security. The options selected are proven to be effective in mitigating the deadly effects of

storm surge on our state."

The barrier system would be a system of levees and sea gates beginning on high ground north of High Island and running the length of Bolivar Peninsula. It would then cross the entrance of Galveston Bay and run the length of Galveston Island, incorporating the existing Galveston seawall. It would end at San Luis Pass.

At the entrance of Galveston Bay, a system of storm surge gates would be constructed to accommodate navigation to the ports of Galveston, Texas City and Houston. A large navigation gate would also be placed along the Houston Ship Channel. These gates would only close during storm events, and are modeled after similar gates in London on the River Thames and on the coast of the Netherlands.

A "ring levee" would also be placed around Galveston to protect the backside of the island, a densely populated area, from surge and flood waters. Gates and other barriers would be built near Clear Creek, Dickinson Bayou, Offatts Bayou and Highland Bayou. The plan released on Friday also includes beach and

A dike, also known as the "coastal spine," is being proposed to protect Galveston, Bolivar and the Galveston Bay area from storm surges.

dune restoration along the lower Texas coast, and nine ecosystem restoration projects to increase resilience.

Fifty-Six Houston Work-Related Deaths Reported Since January 2017

Compiled And Edited By John T. Robbins, Southern Daily Editor

There were 56 workplace deaths in the greater Houston area between Jan. 1, 2017, and Sept. 24, 2018, according to data from the Occupational Safety and Health Administration, which is part of the U.S. Department of Labor. Employers were fined between \$0 and up to more than \$200,000 for the deaths and some of the cases remain open.

Of the 56 total Houston cases, a citation was not issued in 32 of them. One of the local deaths is that of Jill Renick, who drowned in the elevator of the basement at the Omni Houston Hotel during Hurricane Harvey. OSHA initially fined her employer, Omni Hotels Management Corp., \$12,934 but the current penalty is listed at \$9,700, according to OSHA. The case is closed.

A lawsuit was filed in June in Dallas County District Court over Renick's death against Omni and several related entities along with Connecticut-based Otis Elevator Co.

HOUSTON-AREA DEATHS OF EMPLOYEES WHO DIED ON THE JOB SINCE JANUARY 2017

The following data is from the Occupational Safety and Health Administration department and includes deaths from Jan. 1, 2017, through Sept. 24, 2018. There were 56 deaths in the Houston area during that time, per OSHA.

(This data is from the Occupational Safety and Health Administration department and includes deaths from Jan. 1, 2017, through Sept. 24, 2018. There were 56 deaths in the Houston area during that time, per OSHA.)

Date of Inspection	City	State	Hazard Description	Inspection Number	Federal or State	Citation Issued
01/03/2017	Cut and Shoot	TX	Worker died in fall from tree.	1200304	Federal	No
01/05/2017	Houston	TX	Worker died in fall from skylight.	1201324	Federal	Yes
01/21/2017	Houston	TX	Worker cutting trees died in fall from scaffold.	1204854	Federal	Yes
01/23/2017	Houston	TX	Worker died after falling in stairwell.	1204894	Federal	No

03/14/2017	Alvin	TX	Worker died after being struck by falling object on a derrick.	1218182	Federal	Yes

Construction worker heads to work at the crack of dawn in Houston. Construction-related industries had a large number of deaths in the Houston area from Jan. 1, 2017 to Sept. 24, 2018, including in the roofing and landscaping service industries.

03/30/2017	Galveston	TX	Worker died in fall from bucket lift.	1221253	Federal	No
04/01/2017	Houston	TX	Worker died in fall from ladder.	1222109	Federal	No
04/10/2017	Katy	TX	Worker fatally crushed between bulldozer and storage container.	1224365	Federal	Yes
04/20/2017	La Porte	TX	Worker died after being struck by gantry crane.	1227606	Federal	No
05/03/2017	Sugar Land	TX	Worker died in fall from scaffold.	1230209	Federal	No
05/07/2017	Houston	TX	Worker died in fall from tree.	1231322	Federal	No
05/11/2017	Heights	TX	Worker died after being stuck by vehicle.	1244739	Federal	Yes
05/16/2017	Houston	TX	Worker died when airline respirator was hooked to nitrogen hose.	1233587	Federal	Yes

Another Houston-area death that occurred this year was that of a worker at Genan Inc.'s Houston tire recycling plant who was pulled into a shredder and killed. Denmark-based Genan was initially fined \$204,549 for the death and the case is open, according to OSHA. The plant is located at 18038 Beaumont

06/02/2017	Houston	TX	Worker died from multiple wasp stings.	1237348	Federal	No
06/18/2017	Houston	TX	Worker died after collapsing and sustaining a head injury.	1240684	Federal	No
07/13/2017	Nederland	TX	Worker fatally crushed when skylift bucket tipped over.	1247268	Federal	No

For a complete list of Houston-area work-related deaths, go here: https://www.bizjournals.com/houston/news/2018/10/05/see-a-list-of-all-the-56-houston-work-related.html?ana=e_hstn_bn_newsalert

Source: Occupational Safety and Health Administration from Jan. 1, 2017, through Sept. 24, 2018.

Large employers are required to report injuries and workplace deaths to assist OSHA in determining how to allocate compliance assistance and enforcement resources to prevent injuries. In July, OSHA changed the reporting requirements for companies with more than 250 workers that eliminated some of the its prior reporting requirements.

Construction worker being treated after work-related injury.

The most recent Houston workplace death was in March and involved a worker who died in a fall from a collapsed load at the Port of Houston, according to OSHA. The employer is listed as Richardson Stevedoring & Logistics Services Inc., which was fined \$10,477, and the victim's name is not disclosed. The case is closed.

Another Houston-area death that oc-

Highway. Meanwhile, the landscaping, roofing and highway construction industries reported more worker deaths across the country than any other industry over the past 21 months, according to OSHA

How employees die at work

Overall, 77 workers in landscaping services died on the job, the most among any sector tracked, between Jan. 1, 2017 and Sept. 24, 2018. Some of the Houston-area landscaping services deaths include workers falling from trees, according to OSHA.

Some of the most historically dangerous jobs — those related to mining, quarrying, and oil and gas extraction — have seen steady declines in worker fatalities since 2007. A decade ago, those sectors combined had a rate of about 21.4 deaths per 100,000 workers; in 2016, the rate had dropped by nearly half to be on par with the construction industry. Nonetheless, there were 1,424 work-related deaths in Texas during the time period with many occurring in the energy industry. (Courtesy <https://www.bizjournals.com>)

The first recreational cannabis to be legally bought in Canada was purchased at midnight on Wednesday (02:30 GMT) on the eastern island of Newfoundland amid queues of hundreds of people. Canada has become the second country after Uruguay to legalize possession and use of recreational cannabis.

Medical marijuana has been legal in the country since 2001.

But concerns remain, including about the readiness for police forces to tackle drug impaired driving.

Information has been sent to 15m households about the new laws and there are public awareness campaigns.

Ian Power, from the town of St John's began queuing at 20:00 local time so he could "make history". Newfoundland is half an hour ahead of the next province to the west.

"It's been my dream to be the first person to buy the first legal gram of cannabis in Canada, and here I finally am," he said.

Canadian provinces and municipalities have been preparing for months for the end of cannabis prohibition. They are responsible for setting out where cannabis can be bought and consumed.

This has created a patchwork of more or less restrictive legislation across the country.

Customers lined up outside Tweed in St John's in Newfoundland as midnight approached. How ready is Canada for legal cannabis?

There remain unanswered questions on some key issues around how legal cannabis will work in Canada.

A number of analysts are predicting a shortage of recreational marijuana in the first year of legalisation as production and licensing continues to ramp up to meet demand.

Canada Becomes Second Country To Legalize Recreational Cannabis

Compiled And Edited By John T. Robbins, Southern Daily Editor

Nikki Rose (center) and Ian Power (right) were the first people in Canada to buy legal cannabis.

And the marketplace itself is still in its infancy.

Ontario, Canada's most populous province, will only begin opening retail stores next spring, though residents will be able to order cannabis online.

British Columbia, one of the provinces with the highest rates of cannabis use, will only have one legal store open on Wednesday.

Until retail locations are more widely available, some unlicensed cannabis retailers, which have flourished in the years since the law was first proposed, may stay open.

It is unclear if police will crack down on them immediately, or if they will turn a blind eye.

What's at stake?

Legal pot has been an inescapable topic for months in Canada, as governments and companies prepared in earnest for 17 October.

That day is finally here, and Canadians will learn just how much - or how little - the new framework will change the country. But this is not just a domestic affair.

With global trends shifting away from a strict prohibition of cannabis, the world will be watching this national experiment in drug liberalisation.

A measure of success - whether legislation will be a win for Prime Minister Justin Trudeau ahead of the 2019 federal election - will depend on whether it meets his stated goals: restricting access of the drug to youth - who are among the heaviest users in Canada - reducing the burden of cannabis laws on the justice system, and undercutting the illicit market for the drug.

And if the outcomes are positive, other countries might just be more willing to follow suit.

Why is Canada legalizing cannabis?

Legalisation fulfils a 2015 campaign

promise by Prime Minister Justin Trudeau, the leader of the governing Liberal Party.

The prime minister has argued that Canada's nearly century-old laws criminalising use of the drug have been ineffective, given that Canadians are still among the world's heaviest users.

He said the new law is designed to keep drugs out of the hands of minors and profits out of the hands of criminals.

The federal government also predicts it will raise \$400m a year in tax revenues on the sale of cannabis.

Cannabis possession first became a crime in Canada in 1923 but medical use has been legal since 2001.

What is the situation elsewhere?

Canada follows in the footsteps of Uruguay, which became the first country in the world to legalise the sale of cannabis for recreational use in 2013. A number of US states have also voted to end prohibition.

Medical marijuana is also gaining ground in many European countries. Portugal and the Netherlands have decriminalised the drug.

Prevalence of cannabis use around the world

South Africa's highest court legalised the use of cannabis by adults in private places in September, though the sale of the drug remains a crime.

In April, Zimbabwe became the second country in Africa, after Lesotho, to legalise the use of marijuana for medical purposes.

Nine US states have legalised recreational marijuana use while many more allow its use on medical grounds.

What are the new rules around cannabis? Adults will be able buy cannabis oil, seeds and plants and dried cannabis from licensed producers and retailers and to possess up to 30 grams (one ounce) of dried cannabis in public, or its equivalent.

Edibles, or cannabis-infused foods, will not be immediately available for purchase but will be within a year of the bill coming into force. The delay is meant to give the government time to set out regulations specific to those products.

Unauthorised dispensaries have cropped up in cities across Canada in the run-up to legalisation. It will be illegal to possess more than 30 grams in public, grow more than four plants per household and to buy from an unlicensed dealer.

Penalties for some infraction will be severe. Someone caught selling the drug to a minor could be jailed for up to 14 years.

Some critics say the penalties are too harsh and not proportional to similar laws like those around selling alcohol to minors. (Courtesy <https://www.bbc.com/news>)

Technical Field Service Engineer (Field Service Specialist Adv.) position at Vallution, LLC Houston, TX 77036

WE'RE HIRING

About the company
Vallution, LLC is a global leading solution and revolution provider for equipment and field service of testing and calibration pressure safety/relief valves. The Vallution product designs are well proven through the 20+ years of experience in pressure safety/relief valves maintenance, repair and testing. Vallution not only supplies high quality standardized testing equipment, but also develops engineered solutions, and field service in close cooperation with our customers.

Vallution is a transitioning organization that is experiencing a new chapter of growth on a worldwide basis. We attract, retain, and develop great people by fostering a culture that enhances creativity, continuous learning and improvement, teamwork, responsibility, and mutual trust. Currently we have one opening position for Technical Field Service Engineer (Field Service Specialist, Adv.) at Vallution, LLC Houston, TX 77036.
Contact: info@vallutionusa.com
Attn: HR Manager

TITLE Field Service Engineer (Field Service Specialist, ADV.)

DESCRIPTION Will serve as technical support person for the Business Development Manager in corporate accounts and independent sales managers and other accounts designated by the District sales Manager. The Field Service Engineer will be the first line of defense on problems within a Vallution organization. The Service Engineer will then direct the appropriate home office resource to help solve the customers' problems. The Service Engineer assumes the responsibility to collect pressure relief valves engineering knowledge of different manufactures and develop proposals from the corporate accounts and develop sales plans with distributors when directed by the District Sales Manager. Assumes the ability to conduct short technical seminars at the corporate accounts. Will be trained and have the ability to audit regional field service technicians and run tests as needed.

POSITION REQUIREMENTS Requires a Bachelor's degree in Petroleum Engineering, Environmental Engineering or a related field. Must have at least 10+ years of experience in a manufacturing environment with exposure to O&G up stream, midstream and downstream production facilities, chemical and refinery, power plants. Must have verbal and written skills to communicate effectively with plant and Master site personnel at all levels. Must have the ability to travel and stay overnight, onshore and offshore. Bilingual (English and Chinese) skills preferred.

REQUIRED CERTIFICATIONS TWIC Card, T-HUET, Rig Pass for offshore.

TRAVEL Yes. The Service Engineer will travel extensively, 80% of working time.

SALARY RANGE Base and Bonus.

OTHER PMP certification highly recommended.
