## New York fashion grandee Barneys files for bankruptcy protection

(Reuters) - U.S. department store operator and fashionista favorite Barneys New York Inc filed for bankruptcy protection on Tuesday and put itself up for sale, underscoring how even luxury retailers are struggling to freshen their image and compete with online rivals.

The nearly century-old chain, best known for swanky shop windows on New York's Madison Avenue, long enjoyed a loyal following among socialites and a privileged reputation as a retailer that could make or break a brand. But it has also suffered like peers across the bricks-and-mortar retail landscape in part as consumers flock to online alternatives. In addition, a recent spike in store rent left Barneys reeling and scrambling to find a buyer.

Barneys said in a statement that it had now secured \$75 million in new financing from affiliates of Hilco Global and the Gordon Brothers Group to help it keep operating while under bankruptcy protection.

The retailer added that it would focus on key locations, and close major stores in Chicago, Las Vegas and Seattle, along with five smaller concept shops and seven Barneys Warehouse locations, where it sold more heavily discounted merchandise. Barneys plans to keep its main store in Manhattan, a sprawling nine-floor building, open along with four other locations. Rent at the Madison Avenue flagship store in particular posed a problem for the cash-strapped firm, rising to roughly \$30 million from \$16 million.

Reuters reported in July that Barneys was exploring its options, including a bankruptcy filing, as a result.

Barneys executives and board members "have taken decisive action by entering into a court-supervised process, which will provide the company the necessary tools to conduct a sale process, review our current leases and optimize our operations," said Chief Executive Officer Daniella Vitale.

## Wall St. rebounds, up 1% after China moves on yuan

NEW YORK (Reuters) - U.S. stocks jumped more than 1 percent on Tuesday, bouncing back from a sharp sell-off the previous day as China stepped in to stabilize the yuan, easing concerns that currencies would be the latest weapon in the trade war.

China's overnight intervention came after the U.S. Treasury Department labeled Beijing as a currency manipulator as it let the yuan slide to a more than decade low on Monday.

"It's a signal from the Chinese side that they want to keep the yuan steady and elevated. But it also indicates how quickly things can change. That's permeating the tone in the market, and it's one of the reasons there remains that sense of trepidation," said Quincy Krosby, chief market strategist at Prudential Financial in Newark, New Jersey.

On Monday, U.S. stocks suffered their sharpest one-day percentage drop of the

year after a steep fall in the Chinese currency, with the S&P 500 .SPX and Nasdaq .IXIC losing at least 3% each in the session.

China's move to fix the yuan at a slightly stronger rate and White House economic adviser Larry Kudlow's comment that President Donald Trump was planning to host a Chinese delegation for further talks in September allayed fears of a further escalation in the trade war.

The technology sector .SPLRCT, which includes companies that have a big exposure to China and were at the heart of Monday's sell-off, provided the biggest boost to the S&P index, rising 1.52%. The Dow Jones Industrial Average .DJI rose 248.89 points, or 0.97%, to 25,966.63, the S&P 500 .SPX gained 31.23 points, or 1.10%, to 2,875.97 and the Nasdaq Composite .IXIC added 100.77 points, or 1.3%, to 7,826.81. The S&P 500 had been reeling from last week's shock when Trump vowed to slap a 10% tariff on a further \$300 billion in imports from China.

Apple Inc (AAPL.O) gained 1.7% after three days of heavy losses, while the Philadelphia Semiconductor index .SOX edged 1.34% higher.

Among other stocks, Take-Two Interactive Software Inc (TTWO.O) jumped 8.8% after the videogame publisher raised its full-year revenue forecast.

Advancing issues outnumbered declining ones on the NYSE by a 1.87-to-1 ratio; on Nasdaq, a 1.53-to-1 ratio favored advancers.

The S&P 500 posted five new 52-week highs and 24 new lows; the Nasdaq Composite recorded 20 new highs and 189 new lows.

# Trump shrugs off trade war concerns; China warns of market chaos

WASHINGTON/BEIJING/SHANGHAI (Reuters) - U.S. President Donald Trump on Tuesday dismissed concerns over a protracted trade war with China, as Beijing warned that Washington's decision to label it a currency manipulator would lead to chaos in financial markets.

Trump, who announced last week he would slap a 10% tariff on a further \$300 billion in Chinese imports starting Sept. 1, said investment was pouring into the U.S. economy. He also pledged to stand with American farmers in the face of Chinese retaliation.

China has halted U.S. agricultural purchases and raised the specter of additional tariffs on U.S. farm products.

While Trump played down the prospects of the trade dispute being drawn out, St. Louis Federal Reserve Bank President James Bullard said the U.S. central bank may be stuck with a volatile global trade environment for years.

"I think of trade regime uncertainty as simply being high in the current environment," Bullard said in a presentation on the U.S. economy and monetary policy before a National Economists Club luncheon. "I do not expect this uncertainty to dissipate in the quarters and years ahead."

Ratcheting up the pressure on China, the U.S. Treasury Department said on Monday it had determined for the first time since 1994 that Beijing was manipulating its currency. The move followed China's decision to let the yuan fall below the key seven-per-dollar level for the first time in more than a decade, rattling financial markets and dimming hopes for an end to a trade war that has dragged into a second year.

Wall Street notched its worst day of 2019 on Monday. In early afternoon trading on Tuesday, the markets were making a subdued rebound.

Explainer: U.S. branding of China as currency manipulator offers few new remedies

The S&P 500 index was up 0.7% after falling 3% on Monday, as investors digested moves by China and the United States related to currencies amid their trade dispute. The yuan strengthened.

London's FTSE 100 closed sharply lower, its sixth straight session in the red, bringing its losses to more than 5% since Trump announced the additional import tariffs on Chinese goods.

China's central bank said on Tuesday that Washington's currency move would "severely damage international financial order and cause chaos in financial markets," while preventing a global economic recovery.

China "has not used and will not use the exchange rate as a tool to deal with trade disputes," the People's Bank of China (PBOC) said in the country's first official response to the latest U.S. salvo.

"China advised the United States to rein in its horse before the precipice, and be aware of its errors, and turn back from the wrong path," it said.

The Trump administration wants to continue trade talks with China and is still planning to host a Chinese delegation for further talks in September, Larry Kudlow, director of the White House National Economic Council, told CNBC on Tuesday.

Kudlow said movement toward an agreement could change the outlook for U.S. tariffs, adding, "It takes two to tango." He added that the U.S. economy was still in good shape and said he saw no signs of a global recession on the horizon despite growing concerns the U.S.-China standoff is slowing manufacturing activity around the world.

"The U.S. economy is very strong. The rest of the world is not. We're the engine that makes it go. Frankly, I see no signs," Kudlow said, when asked about the prospect of a global recession. "The economic burden is falling vastly more on them (China) than us."

Kudlow said Washington was forced to make the currency designation given a 10% drop in China's currency since April 2018, and said other members of the Group of Seven (G7) industrialized countries supported the action.

"At some point in time, if they are violating our laws, WTO (World Trade Organization) laws and, frankly, G20 laws of currency stability ... we have to take the action," he said. "They brought it on themselves."

**VENTING ANGER**

The U.S.-China dispute has already spread beyond tit-for-tat import tariffs to other areas such as technology, and analysts caution retaliation could widen in scope and severity, weighing further on business confidence and global economic growth.

The U.S. currency action has driven an even bigger wedge between the two countries.

Global Times, a Chinese tabloid published by the ruling Communist Party's People's Daily, said the United States had taken the action purely out of a political motive to "vent its anger."

China "no longer expects goodwill from the United States", Hu Xijin, the newspaper's editor-in-chief, tweeted on Tuesday.

The United States sets out three criteria for identifying manipulation among major trading partners: a material global current account surplus, a significant trade surplus with the United States, and persistent one-way intervention in foreign exchange markets.

# Houston Unveils First Draft Of City Climate Action Plan

## First Draft Of City's Climate Action Plan Is Unveiled

Amid concerns about the limited federal response to climate change, the city of Houston released a draft plan on the issue that calls for increasing the generation of renewable energy, greater investment in "green infrastructure" and expanding the use of alternative modes of transportation by making it easier for people to walk, ride their bikes and use public transit.

Climate change has made it imperative that cities such as Houston take action, but it will require a communitywide effort to make it happen, officials said Thursday. "Ten years ago, a mayor in Houston probably wouldn't be talking about climate change, maybe even five years ago, maybe even three years ago," Mayor Sylvester Turner said. "But things have changed. It's a new reality, and now we have an obligation to respond in a responsible fashion."

City officials released the first draft of their communitywide climate action plan at City Hall last Thursday. They hope to release a final report by December; the public can comment through the end of August. Weeks after the Trump administration withdrew the U.S. from the landmark Paris climate accord in 2017, Turner joined other mayors in committing to adopt the goals of the agreement, which include becoming a carbon-neutral city by 2050. Today, there are 427 such cit-

ies in 48 states. Experts say that it can be difficult to track progress, and that many other cities appear to be falling short of aggressive goals. Houston has one of the largest per capita greenhouse emissions in the country. In 2014, Houston residents and businesses generated nearly 35 million tons of greenhouse gases through carbon-fueled buildings, cars and waste. If nothing is done, this number is projected to rise to at least 45 million per year by 2050.

Climate change is increasing the city's flood risk, as well as the intensity and frequency of storms, and while the problem can't be fixed overnight, Turner told about 100 attendees, "If we take bold actions to lead our city on a sustainable path, we will leave behind a better Houston for future generations."

it will result in greater projected emissions," he said. And part of it is changing the image of Houston, emphasizing that it can fight climate change and still be the energy capital of the world.

"We need to make sure that the next big thing in renewable energy, in carbon capture technology, in green technology comes from Houston," said Lara Cottingham, the city's chief sustainability officer. "That's how we keep and maintain that proud leadership as the energy capital of the world."

The city's plan is divided into four areas: building optimization, energy transition, materials management and transportation. Each includes a list of goals, strategies and actions. One of the biggest challenges that cities such as Houston face is that the state and federal governments primarily control regulations. "We don't have control over a lot of things that would generate faster results," Cottingham added.

### WHAT ARE HOUSTON'S SOURCES OF GREENHOUSE GAS EMISSIONS?

In 2014 Houston emitted 34.3 million metric tonnes of carbon dioxide equivalent (CO2e). Houston's biggest sources of greenhouse gas emissions are transportation (47%) and commercial and residential buildings (49%). Other sources of emissions include manufacturing, waste, and fugitive emissions (4%).

Overall, Houston's greenhouse gas emissions have decreased since 2007, primarily due to increases in residential energy efficiency and more renewable energy sources such as wind and solar power being built.

However, since 2007 emissions associated with transportation have increased. Reducing the city's emissions will not only help fight climate change, Turner said, it will lead to more resilient communities, reduce harmful pollution, cut energy waste and boost the local economy.

It will also better prepare the city for the rapid population growth that it is expecting. "Growth provides Houston with a tremendous economic opportunity, but

it will result in greater projected emissions," he said. And part of it is changing the image of Houston, emphasizing that it can fight climate change and still be the energy capital of the world.

Storage tanks at a refinery along the Port of Houston waterway

The energy industry should be working faster to combat climate change, according to Jan Dash, editor for the forthcoming Encyclopedia of Climate Change: Finance, Economics, Policy. Their biggest concern is whether there will be the political will to bring it to fruition, they said.

"I do feel we need a little bit more urgency at the political level to come anywhere near achieving the goals that have been set," said Harrison Humphreys, with Air Alliance Houston.

"The thing about emissions and greenhouse gasses," he added after the meeting, "is that they don't care about city limits, so it's going to take a lot of combined efforts with regional partners, not only the county."

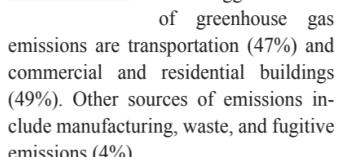

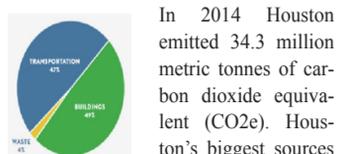

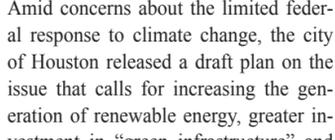

He added that advocacy groups will also have to be watchful for conflicting policies, such as calling for a reduction in how much Houstonians use their cars and the expansion of Interstate 45.

**WHAT IS THE TIMELINE?**

We expect the full Climate Action Plan to be released by the end of 2019.

### Experts Say Climate Change Intensified Hurricane Harvey.

So they will have to decide whether the entire community works together to achieve results or advocate for changes at the state and federal levels. The plan will not be a binding document. If there are policies that need to be changed at the city or state level, for instance, they will have to go through the normal process. And many are simply recommendations.

The second is funding, she added. There's only so much the city will be able to accomplish; for instance, once it converts its fleet to electric vehicles to reach its goals, the city will have to get buy-in from the public and businesses, which may require incentives to bring about change. Several environmental nonprofits in at-

tendance at Thursday's announcement were pleased with the direction that the city was heading and by the fact that the working group seems to be taking their comments into consideration, including the general timeline for reducing greenhouse emissions.

**100 Million Credit Applications Stolen From Capital One Online**

(Photo/AFP/Getty Images)

Compiled And Edited By John T. Robbins, Southern Daily Editor

The FBI arrested Washington state resident Paige Thompson Monday morning for the digital theft of data from tens of millions of credit card applications, multiple news sites reported. Capital One confirmed broad aspects of the arrest in a press release.

**What was stolen:** Data from around 100 million credit card applications from between 2005 and 2019, including 80,000 bank account numbers and 140,000 Social Security numbers. 1 million Canadian Social Insurance Numbers were also stolen.

**Background:** Capital One said it discovered the data breach on July 19 in the process of patching a security glitch reported to the company.

The FBI quickly arrested Thompson, who reportedly bragged about the heist online.

**Threat level:** Capital One's statement said the company does not believe information from the credit card applications has been released online.

**The impact:** The breach will cost the financial firm \$100 million-\$150 million to resolve, per Capital One, including the costs of notifying affected applicants, providing applicants with credit monitoring and other costs.

It's one of the biggest breaches of a major financial institution ever. Four months after the incident occurred, within just 10 days of Capital One discover-

ing it, the FBI has already made an arrest in connection with the crime.

**Seattle resident Paige A. Thompson, a software engineer was charged with digital theft of data from tens of millions of Capital One credit card applications.**

Seattle resident Paige A. Thompson, 33, was charged Monday with one count of computer fraud and abuse, according to the FBI and court records. Thompson, the criminal complaint alleges, went by the hacker name "erratic" in many online accounts and forums. She allegedly exploited a misconfigured firewall to access a Capital One cloud repository and exfiltrate data sometime in March. On April 21, the FBI says, Thompson posted the data to her GitHub account, which included her full name and résumé. It is unclear whether anyone downloaded the data after she allegedly posted it, but they very well may have given that Thompson allegedly talked openly about stealing the data, even on Slack.

At least one person appears to have stumbled across the trove. On July 17, court documents say, an unidentified

tipster informed Capital One of its existence by emailing the bank's responsible disclosure address with a brief warning about the data and a link to it on GitHub. "Capital One quickly alerted law enforcement to the data theft—allowing the FBI to trace the intrusion," US attorney Brian Moran said in a statement. "I commend our law enforcement partners who are doing all they can to determine the status of the data and secure it."

Capital One said in a statement on Monday that the stolen data related to credit card applicants and current credit card customers. The breach also affects 6 million Canadians, including one million Canadian Social Insurance numbers, in addition to the more than 100 million US consumers impacted.

"Capital One immediately fixed the configuration vulnerability that this individual exploited and promptly began working with federal law enforcement," the bank said. "The FBI has arrested the person responsible, and that person is in custody. Based on our analysis to date, we believe it is unlikely that the information was used for fraud or disseminated by this individual. However, we will continue to investigate."

Capital One discovered the breach on July 19. The FBI connected the incident to Thompson quickly, the criminal complaint says, because it was so easy to link the Github page where she posted the stolen data to her handle and real identity. From there, investigators searched Thompson's communications and worked backward to see if Capital One's system logs matched the timeline of Thompson's alleged online activity.

Thompson allegedly used the anonymity network Tor and the VPN IPredator while breaching Capital One, exfiltrating data, and posting it to GitHub in April, and she seemed confident that they would protect her identity. But these

tools are far from foolproof ways of covering your tracks, especially when you're also posting about your actions on accounts linked to your real identity.

One screenshot of a Slack conversation from the criminal complaint shows an unnamed individual saying "sketchy shit, don't go to jail plz," after Thompson allegedly posted a link to the stolen data. A user named "erratic" replied, "I wanna get it off my server thats why Im archiving all of it lol. its all encrypted. I just don't want it around though."

Another screenshot shows some of Thompson's alleged messages sent over Twitter direct messages. "Ive basically strapped myself with a bomb vest, fucking dropping capitol ones dox and admitting it. I wanna distribute those buckets i think first. There snns ... with full name and dob."

The criminal complaint says that the résumé on Thompson's alleged GitHub account reported that she was a systems engineer from 2015 to 2016 at Amazon Web Services, which hosted the account she allegedly breached. CapitalOne says the misconfiguration lay in its own infrastructure, rather than AWS'. Amazon confirmed to WIRED that Thompson is a former employee.

As in the physical world, it's fairly difficult to disconnect your online actions from your real identity. This presents a hurdle for people like activists, political dissidents, and whistle-blowers, but it is also a challenge that criminal hackers attempt to overcome with varying degrees of sophistication and success. Tools like VPNs and Tor can lend a false sense of protection to those who don't really know how to fully conceal their actions, though.

"Under optimal conditions, in principle, tools like Tor can isolate your footprints," says Kenn White, director of

the Open Crypto Audit Project. "The problem is, nothing is really useful in isolation. People use social media, they use familiar, known handles. It is very hard to compartmentalize your life online, and it only takes one mistake to be caught, particularly for crimes of this magnitude."

Still, online criminals, fraudsters, and other malicious hackers are caught relatively rarely, and successful investigations usually take many months or years. This in itself raises some questions about how easily and quickly law enforcement traced the alleged hacker in the Capital One breach. In the case of the massive 2017 Equifax hack, for example, investigators still have not publicly named a culprit or motive.

Capital One estimates that responding to the incident will cost \$100 million to \$150 million in the short term. But, as usual, consumers are the true victims. Monitor your financial accounts and credit reports for any unusual activity and make sure your digital accounts all have strong passwords and two-factor authentication enabled to avoid or quickly catch attempts to invade your digital life. Though in the case of the Capital One incident, it's possible that the data is not actually in public circulation, even though it was posted for nearly three months.

"The multimillion-dollar question is who has the dump," White says, "whether anyone grabbed it before the arrest." (Courtesy wired.com)

# 革命史詩電影《古田軍號》公映

重大歷史題材影片《古田軍號》於8月1日公映。《古田軍號》作為慶祝中華人民共和國成立70周年、紀念古田會議勝利召開90周年的重點獻禮電影，在中國人民解放軍建軍92周年紀念日的重大時刻，向革命先輩們致敬！向我們最可愛的人致敬！

《古田軍號》是壹部革命史詩電影，取材於1929年古田會議前後的壹段歷史，以壹名紅軍小號手的視角，講述了紅軍從井岡山突圍到閩西期間，毛澤東、朱德、陳毅等青年革命領袖帶領紅軍在絕境中探索真理，開辟中國革命成功之路的非凡歷程。

1929年召開的古田會議在我黨和人民軍隊建設史上具有重要意義，會議確立的思想建黨、政治建軍原則壹直是我黨寶貴的精神財富。古田更是至今被稱為人民解放軍“軍魂”的誕生地。《古田軍號》將這個極具歷史意義的重大題材搬上大銀幕，無疑是對90年前閩西的那段崢嶸歲月最好的致敬。

為了還原革命領袖當年在閩西生活的細節，影片主創團隊多次深入革命老區生活、重溫革命歷史、潛心藝術創作，深入挖掘與影片有關的創作素材。此外，《古田軍號》取景都在當年紅四軍所在的

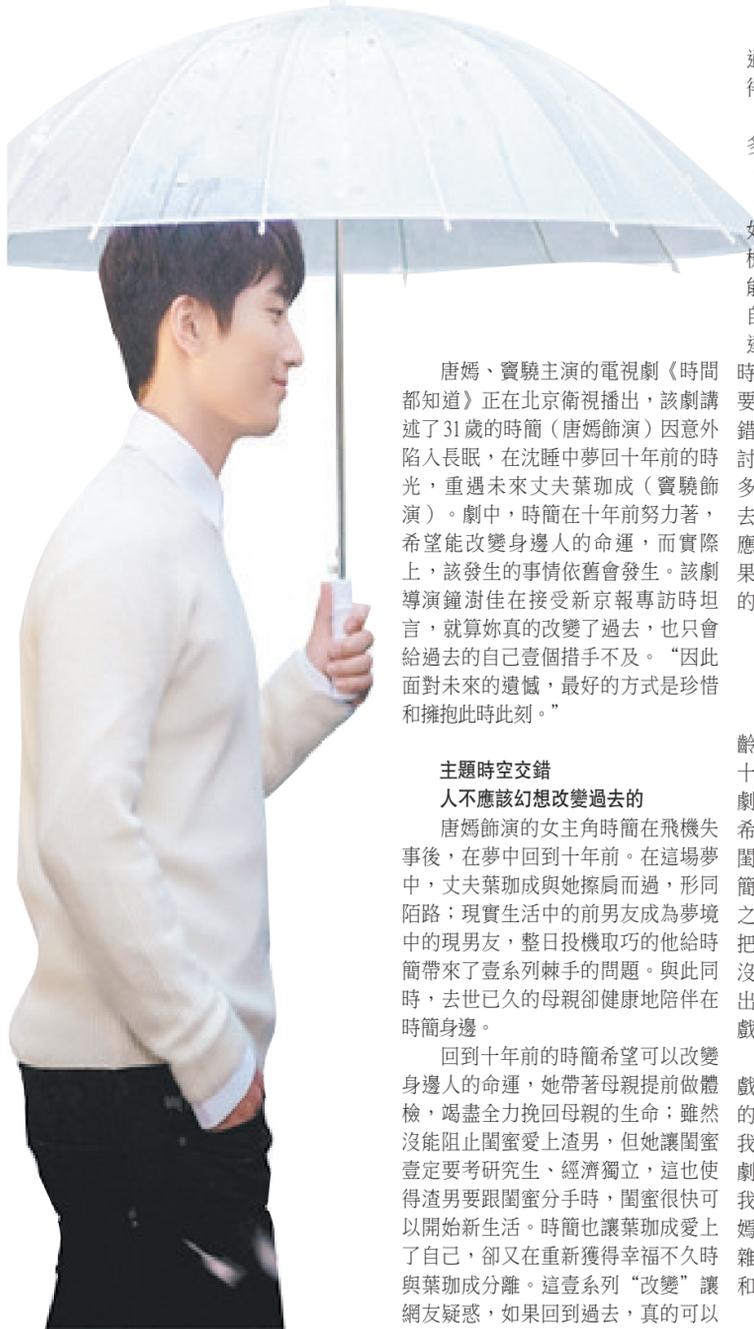

各個舊址進行，導演陳力帶著主要演員和主創幾乎走訪了所有的紅軍駐地，並最終選定了古田會議舊址、“中興堂”、“望雲草堂”等地作為主場景。

《古田軍號》全面還原了井岡山勝利會師前後熱血而殘酷的革命戰場，再現軍魂鑄就時刻。影片採取大規模煙火爆營造戰爭氛圍，場面恢宏、震撼人心。

如何將紅色基因的傳承賦予時代語境，打造壹部可以“讓歷史照進現實”的年輕化主旋律？導演陳力壹直在思考。她表示：“在新時代如何表現重大革命歷史題材的問題上，我們壹直在力求創新和突破，力求宏大敘事與個性表達的融合。”為了和當代的青年人保持同樣的語境，給他們更多的代入感，《古田軍號》在故事構架、藝術表達、背景音樂選取、鏡頭拍攝狀態、畫面剪輯等方面都選擇了青年人更容易接受的方式。

“那個年代的青年領袖，是壹代又壹代青年人的偶像，他們的激情與信仰可以感染每壹個人。”《古田軍號》將用真實的歷史故事、時代化的語境與極富感染力的人物塑造，呈現出壹部獻給青年觀眾的“那個年代的偶像電影”。

# 導演解讀《時間都知道》人不應該幻想改變過去

通過改變既有的事件，改寫命運、獲得幸福嗎？

導演鐘澍佳：中外影視作品有很多關於“時間錯位”的故事，比如《回到未來》《時光倒流未嫁時》《Memento》等。對大部分人而言，如果可以像影視作品中那樣，有壹個機會能回到十年前，大家想的或許是能不能改變以前遺憾的事，或者想讓自己獲得更大的利益。但這部戲想傳達給觀眾的是“成長”二字。不論是時簡，或是她幫助的人，她們更多需要面對的是責任、成長，或者為了過錯而付出代價，這才是這部劇希望探討的部分。時簡夢回21歲，她想做很多事，但其實人是不應該幻想改變過去的。有些改變的事情會引發蝴蝶效應，會產生不完美、更不可預測的結果，這就是人生——充滿了不可預測的可能性。

### 演員 唐嫣演哭戲會思考很多

唐嫣此次飾演同壹個人的兩個年齡段，且跨越現實和夢境。因為回到十年前的時簡要面對很多突發狀況，劇中唐嫣有不少的哭戲，比如打電話希望葉珈成不要分手時心酸的哭，和閨蜜壹起唱歌時委屈的哭。其中，時簡知道未來婆婆把項鏈給了她之後很傷心，幻想著葉珈成出現幫她把項鏈戴上，這場哭戲在劇本裏面是沒有的，是導演和唐嫣在現場壹起聊出來的。有網友評論，看唐嫣的“哭戲”比她此前的表演更有代入感。

鐘澍佳：唐嫣在拍攝每壹場感情戲，或者比較重場的戲，特別是哭戲的時候，都會在拍攝前或者拍攝中跟我聊很多。她希望自己表現得可以比劇本裏寫的更多壹分不壹樣的層次。我覺得可以用“純淨水”來形容唐嫣，純是她做每件事都很純粹，沒有雜念，淨是她很幹淨，三觀很正直，和她合作特別舒服。

寶驍在劇中飾演的葉珈成是壹個

年輕有為的建築師，延續了他壹貫開朗、陽光的形象。有網友認為寶驍非常適合演此類溫柔、有學識的角色，也有網友感覺，葉珈成壹角和寶驍以往角色區分度不大。

鐘澍佳：我第壹次見寶驍就對他的“書卷”氣質印象很深，他看起來是那種受過高等教育、有文化的讀書人。我覺得這份感覺很適合演葉珈成。寶驍在表演上有個特質跟好多演員不壹樣，拍戲前必須把人物的行為、邏輯性、動機弄得清清楚楚，他才能很投入地去把這些戲表演出來。他不是屬於純學院派，純理論演員，他更多地從壹個心態、思考、邏輯、出發點去表現每壹場戲。他這方面我比較認同，這樣的表演讓我覺得有他的個人特色。

### 劇情撒糖 希望讓各年齡層觀眾都能看明白

劇中，唐嫣飾演的時簡需要回到10年前，也就是21歲的時候，當時她以單純的彩色毛衣、齊劉海的學生裝扮亮相，十年後則以深色職業套裝為主的知性女性造型亮相。

以唐嫣的實際年齡，演繹31歲的時簡看起來更為貼切，但劇中絕大部分情節都是發生在十年前，唐嫣會不會有“裝嫩”之嫌？

此外，雖然《時間都知道》在國產都市劇中，時空交錯的敘事方式是壹部形式感“前衛”的劇集，但劇中也有不少青春愛情劇中常見的“撒糖”段落，比如回到十年前的時簡花樣不斷的“示愛”手段，對於突然成為陌生人的未來丈夫葉珈成，時簡表現出了旁若無人的執著和堅持，冷風中凍4個小時搶到的古典音樂會門票，費盡心思送給對方經典電影《羅馬假日》的膠片版電影票、最適合運動後補充能量的松露巧克力，更大膽表白“能不能不要喜歡別人”。為何安排了如此傳統的“撒糖”情節？

鐘澍佳：唐嫣在十年前跟十年後

的整個妝容打扮、造型上，劇中都做了挺大的區分，我並不擔心會讓觀眾有“裝嫩”的觀感。而且最重要的是，雖然夢中回到過去，但21歲的時簡是帶著壹個31歲人的心智的。

至於“撒糖”的部分，正因為“時空交錯”主題在國產劇中比較少見，所以我希望可以通過其他壹些情節設置，讓每個年齡層的觀眾都能比較容易看明白。

唐嫣、寶驍主演的電視劇《時間都知道》正在北京衛視播出，該劇講述了31歲的時簡（唐嫣飾演）因意外陷入長眠，在沈睡中夢回十年前的時光，重遇未來丈夫葉珈成（寶驍飾演）。劇中，時簡在十年前努力著，希望能改變身邊人的命運，而實際上，該發生的事情依舊會發生。該劇導演鐘澍佳在接受新京報專訪時坦言，就算妳真的改變了過去，也只會給過去的自己壹個措手不及。“因此面對未來的遺憾，最好的方式是珍惜和擁抱此時此刻。”

### 主題時空交錯 人不應該幻想改變過去的

唐嫣飾演的女主角時簡在飛機失事後，在夢中回到十年前。在這場夢中，丈夫葉珈成與她擦肩而過，形同陌路；現實生活中的前男友成為夢境中的現男友，整日投機取巧的他給時簡帶來了壹系列棘手的問題。與此同時，去世已久的母親卻健康地陪伴在時簡身邊。

回到十年前的時簡希望可以改變身邊人的命運，她帶著母親提前做體檢，竭盡全力挽回母親的生命；雖然沒能阻止閨蜜愛上渣男，但她讓閨蜜壹定要考研究生、經濟獨立，這也使得渣男要跟閨蜜分手時，閨蜜很快可以開始新生活。時簡也讓葉珈成愛上了自己，卻又在重新獲得幸福不久時與葉珈成分離。這壹系列“改變”讓網友疑惑，如果回到過去，真的可以

在蝙蝠俠的80年輝煌歷程裏，同樣少不了宿敵小醜的“相殺相伴”，不久前DC電影新作《小醜》入圍了威尼斯電影節主競賽單元，對此吉姆·李表示，這部作品也是DC不斷創新和突破下的產物，並透露這次小醜的改編非常棒，新的角色也會更新大眾的認知，大家壹定會覺得“很酷”“很與眾不同”。

## 小田切讓即將出席 第三屆平遙國際電影展

據平遙國際電影展官方消息，日本電影人小田切讓將出席於10月10日開幕的第三屆平遙國際電影展。

自1999年以舞臺劇演員身份正式出道後，小田切讓迄今爲止已在數十部電影中擔任重要角色，其中包括入圍戛納電影節主競賽單元並在日本獲多項大獎的《光明的未來》、橫掃日本電影學院獎五項大獎的影片《東京塔》及擁有不俗口碑的《深夜食堂》系列等等，曾獲多項表演大獎，合作過的導演包括黑澤清、是枝裕和、中島哲也、松岡錠司、金基德、田壯壯、婁燁等，在亞洲演藝界擁有重要地位。

除詮釋諸多風格迥異的角色之外，小田切讓更開始嘗試從事電影導演工作。在2009年的短片導演作品《櫻花般的人們》之後，他於2018年拍攝的長片處女作《壹位船夫的故事》(They say nothing to stay the same) 奪得入圍即將於8月28日開幕的第76屆威尼斯國際電影節“威尼斯日”單元。該片由頗獲國際攝影大獎的知名攝影師杜可風掌鏡，日本演員柄本明、村上虹郎、淺野忠信、蒼井優等參與演出。值得壹提的是，由小田切讓參演的婁燁導演作品《蘭心大劇院》也同時入圍了威尼斯主競賽單元，意味著他將以導演和演員雙重身份入圍本屆威尼斯電影節。

第三屆平遙國際電影展將於10月10日至19日在位於山西晉中平遙古城內的平遙電影宮舉行，屆時，眾多國內外知名電影人將雲集平遙。除小田切讓外，確定參加第三屆平遙國際電影展的電影人還包括中國導演張藝謀，柏林國際電影節新任藝術總監卡洛·沙特裏安、戛納國際電影節選片總監克裏斯蒂·瓊、威尼斯國際電影節威尼斯日單元總監喬治·戈塞蒂，以及東京銀座電影節FILMeX主席山尚三等。
