China's trade surplus with U.S. hits record as exporters rush to beat tariffs

BEIJING (Reuters) - China's trade surplus with the United States swelled to a record in June as its overall exports grew at a solid pace, a result that could further inflame a bitter trade dispute with Washington.

But signs exporters were rushing shipments before tariffs went into effect in the first week of July suggest the spike in the surplus was a one-off, with analysts expecting a less favorable trade balance for China in coming months as duties on exports start to hite

data came after the administration of U.S. President Donald Trump raised the stakes in its trade row with China on Tuesday, saying it would slap 10 percent tariffs on an extra \$200 billion worth of Chinese imports, including numerous consumer items. China's trade surplus with the United States, which is at the center of the tariff tussle, widened to a record monthly high of \$28.97 billion, up from \$24.58 billion in May, according to Reuters calculations based on official data going back to 2008.

Trump, who has demanded Beijing cut the trade surplus, could use the latest result to further ratchet up pressure on China after both sides last week imposed tit-for-tat tariffs on \$34 billion of each other's goods. Washington has warned it may ultimately impose tariffs on more than \$500 billion worth of Chinese goods - nearly the total amount of U.S. imports from China last year. The dispute has jolted global financial markets, raising worries a full-scale trade war could derail the world economy. Chinese

stocks fell into bear market territory and the yuan currency has skidded, though there have been signs in recent days its central bank is moving to slow the currency's declines.

China's June exports rose 11.3 percent from a year earlier, China General Administration of Customs reported, beating forecasts for a 10 percent increase according to the latest Reuters poll of 39 analysts, and down from a 12.6 percent gain in May.

39 analysts, and down from a 12.6 percent gain in May. China's commerce ministry confirmed last month that Chinese exporters were front-loading exports to the U.S. to get ahead of expected tariffs - a situation that could exacerbate any slowdown in shipments toward the year-end.

"Looking ahead, export growth will cool in the coming months as US tariffs start to bite alongside a broader softening in global demand," Julian Evans-Pritchard, Senior China Economist at Capital Economics in Singapore wrote in a note, though he noted a weaker yuan should help offset some of the decline.

EXPORTS, ECONOMIC RISKS

China's exports to the United States rose 13.6 percent in the first half of 2018 from a year earlier, while its imports from the U.S. rose 11.8 percent in the same period.

Separate data suggested some Chinese retailers moved up orders to the U.S. to insulate themselves from the intensifying trade war that threatens to send up costs on a growing number of consumer products

For January-June China's trade surplus with the United States rose to \$133.76 billion, compared with about \$117.51 billion in the same period last year.

After a strong start to the year, growth in China's exports has moderated recently, and is expected to face more pressure from the initial round of U.S. tariffs. Both official and private business

surveys reported softer export orders last month.

China's foreign trade faces risks of slowing in the second half of the year, General Administration of Customs spokesman Huang Songping told a news conference - a view backed by analysts and likely to put more strain on an economy already feeling the pinch from a multi-year debt battle that has driven up corporate borrowing costs.

Investors fear a prolonged trade battle with the United States could harm business confidence and investment, disrupting global supply chains and harming growth in China and the rest of the world. South Korea, Asia's fourth-largest economy, warned on Thursday that components and materials

SEEKING TO CUSHION TRADE BLOW?

Imports grew 14.1 percent in June, customs said, missing analysts' forecast of a 20.8 percent growth, and compared with a 26 percent rise in May. The commerce ministry also said this week it will use funds collected from tariffs charged on imports from the U.S. to help ease the impact of U.S. trade actions on Chinese companies and their employees. Home sales gained momentum in Sienna Plantation, Bridgeland and Cross Creek Ranch in the first half of the year, earning them a position among the nation's 25 top-selling communities, a new report

They are also among 11 Houston-area communities that made the 50 top-selling master-planned communities based on mid-year home sales, according to RCLCO, a housing consulting firm based in the Washington, D.C. area.

Sienna Plantation, No. 15, saw a 41 percent rise in sales in the first half of the year to 292 sales, RCLCO said. The opening of Leonetti Elementary School and Sawmill Lake Club have drawn buyers to the Missouri City community this year, the developer said.

Houston real estate market hits all-time high

Houston's real estate market had a banner June as buyers closed on more homes than any other month in history and at sales prices never before reached.

From low-end to luxury, houses are selling throughout the area, even as last year's hurricane remains on the minds of many Houstonians with Harvey's one-year anniversary approaching.

Still, buyers are cautious: If they find out a house flooded, they'll walk

away. And if they find something in the right neighborhood but the house has issues, they'll keep looking.

"Buyers seem to be a little more confident that something else will come along," said Mike Mahlstedt, an agent who specializes in close-in neighborhoods.

COMMUNITY

HOUSTON (March 13, 2018) - A \$4.4 million grant awarded to Texas A&M University from the National Science Foundation will provide a boost to Houston Community College students pursuing careers in cybersecurity.

With the award from the NSF Foundation CyberCorps Scholarships for Service Program, the Texas A&M Cybersecurity Center will administer the Cyber Leader-Scholars Program in partnership with HCC.

The program will combine the academic experience at both institutions to develop and mentor a group of students over a five-year period. In return for their scholarships, which include generous stipends, the students agree to work for a government agency for a period equal to the length of the scholarship.

NSA \$4.4 Million Grant To Help **HCC Cybersecurity Students**

"We are fortunate to have highly motivated partners from Houston Community College who will administer the program on their campus," said Daniel "Rags" Ragsdale, director of the Texas A&M Cybersecurity Center.

Doug Rowlett, dean of HCC Digital and Information Technology Center of Excellence, said the grant is a big boost

"We are very pleased to be working closely with Dr. Ragsdale," he said. "Our two programs complement each other, and the foundation we can give students transferring to A&M will help them be successful as they pursue their careers."

HCC's designation by the Department of Homeland Security and the National Security Agency insures that the com-

munity college's programs meet the highest federal standards for cybersecurity, Rowlett said.

"It is one of the reasons we were chosen to partner with A&M on this NSF grant, and it opens a wonderful opportunity for our students to move forward with their studies in a prestigious cybersecurity center like the one at A&M," he said. In today's world, computer networks are an essential part of business operations. With accessing information over

the network and the high availability of multiple resources, administrators of enterprise networks have to be aware and understand all potential threats to the network.

Cyber security, also referred to as information technology security, focuses on protecting computers, networks, programs and data from unintended or unauthorized access, change or destruction.

The courses offered at HCC through the Cyber Leader-Scholars Program will include Security Certification, CompTIA Advanced Security Practitioner and Enterprise Network Security (Firewalls & Network Security).

Cybersecurity, also known as computer security or information technology security, is a field that covers the tools and systems used to monitor, mitigate, and prevent online threats. Cybersecurity professionals use innovative technology to combat hackers, cyberterrorists. network outages, and other technical problems that could compromise network security. Due to our growing reliance on web-based technology at home and in the workplace, this fast-paced profession has grown quickly over the past two decades. Today, the U.S. government maintains a National Cybersecurity Division under the Department of Homeland Security; additionally, the

Internet Crime Complaint Center is comprised of personnel from the FBI, the National White Collar Crime Center, and the Bureau of Justice Assistance.

Most careers in cybersecurity are attainable with a bachelor's degree. While some schools offer standalone cybersecurity programs, most students pursue a cybersecurity specialization or concentration as part of a larger major, such as criminal justice, information technology, or network administration. Often, cybersecurity programs facilitate internship opportunities for their students, allowing them to spend time at a practical worksite, where they receive supervised training from experienced

Today, many students are choosing to earn their bachelor's in cybersecurity online. The best online cybersecurity degree programs equip students with the knowledge and skills needed to launch a career in this dynamic field. The asynchronous format used by most web-based programs is particularly convenient for students with part-time jobs, childcare responsibilities, or other commitments that make it difficult to attend class on campus.

Students who graduate with a bachelor's degree in cybersecurity will be qualified for most entry-level positions in the field, along with some managerial roles normally reserved for candidates who have completed a four-year education. Common careers for cybersecurity degree recipients include data analysts, software development, network administration, and digital forensics.

The Trump administration has released a gargantuan list of Chinese goods that will be subject to tariffs, kicking a burgeoning trade war into high gear the likes of which has never been seen before. The new 10% tariffs will apply to a huge amount of items including seafood and other fresh goods. according to the list released by US Trade Representative Robert Lighthizer. "As a result of China's retaliation [the introduction of tariffs on \$34 billion worth of US imports] and failure to change its practices, the President has ordered the US Trade Representative (USTR) to begin the process of imposing tariffs of 10% on an additional \$200 billion of Chinese imports," Lighthizer said. The tariffs are in addition to Trump's 25% tariffs on \$50 billion worth of Chinese goods. Tariffs on the first \$34 billion worth of goods went into place on Friday. The second round, which will apply to around \$16 billion worth of Chinese goods, is set to be imposed in the coming weeks. That second round will be derived from a list already re-

The release of the \$200 billion list is perhaps the most concrete step yet toward an all-out trade war with China and triggers a formal process to implement the tariffs. The next step will be a comment period, during which businesses and consumers can raise issues with the inclusion of certain goods on the

leased by the US Trade Representative.

"This is an appropriate response under the authority of Section 301 to obtain the elimination of China's harmful industrial policies," Lighthizer said in his statement. "USTR will proceed with a transparent and comprehensive public notice and comment process prior to the imposition of final tariffs, as we have for previous tariffs."

The developments mean roughly half of all Chinese imports to the US will be subject to increased duties. The move was immediately attacked by industry groups and trade experts who warned that the back-and-forth tariffs will increase costs for consumers and discourage investment by businesses into new hiring and equipment. These decisions in turn will slow down the US economy.

David French, the senior vice president for government relations at the National Retail Federation, said that the majority of the pain from the new tariffs would fall on US consumers and families.

"The latest list of \$200 billion of products to be subject to tariffs against China doubles down on a reckless strategy that will boomerang back to harm US families and workers." French said. "The threat to the U.S. economy is less about a question of 'if' and more about 'when' and 'how bad."

Jay Timmons, the president and CEO of the National Association of Manufacturers (NAM), also expressed displeasure with Trump's announcement. "The last thing America's manufacturing workers need is an escalating trade war," Timmons said in a statement. "America has China's attention, so instead of more tariffs, the US and China should immediately begin working toward a fair, bilateral, enforceable, rules-based trade agreement to end China's market-distorting activities."Even members of Trump's own party slammed the administration's announcement."Although I have supported

The analysts said a positive outcome is still possible, but it will rely on both sides coming to an agreement over the US complaint about China's intellectual property practices a dispute which forms the basis of the current US tariffs that are in place.

So far, Chinese officials have not backed off their promises to retaliate to any Trump tariff move. On Friday, the Chinese Ministry of Commerce said Trump started the "largest trade war in economic history."

Following the release of the news, markets around the world were in major flux. US stock futures sharply declined, while the Chinese yuan also weakened against the US dollar.

工在比利時布魯塞爾出席北約會議的基 塔羅維奇,在會後接受訪問時表示: "我們(北約代表)晚餐時都在關注着比 賽。這真的很神奇,因為大多數的盟友都為 我們歡呼。這次將會成功登到頂峰,我們會 在星期日的(世界盃)決賽勝出。"據悉, 在克羅地亞政府內閣會議,所有與會者均身 着克羅地亞國家足球隊球衣,以示對國家隊 的支持。

莫迪歷寧願以四換一

對於克羅地亞而言,足球的重要性遠 遠超出運動競技範疇。他們的首任總統圖季 曼曾説: "我們國家的運動員,是我們最好 的大使。"尤其是面對着國內的經濟不景, 還有非法移民的湧入,讓國家爭議不少,目 前國家隊在世界盃的表現,是讓國民再一次

世界冠軍所需要的條件。"

對於自己爭取年底的世界足球先生金 球獎,莫迪歷顯得不以為然: "人人都問我 這個問題,但我真的不在乎。"他指:"當 我們參與這個比賽,我們都相當謙虛,沒有 人在推銷自己。因為目標是要一起去突 破。"

難忘1998年四強止步

莫迪歷表示,自己還記得1998年的世 界盃,克羅地亞被法國擊敗而無法晉身決 賽,他說:"我還記得杜林(法國的入 球)。我很記得我有多傷心,現在我們準備 去修正它!"

領隊戴歷就指,克羅地亞創造出來的 奇蹟是他們用團結去達成的: "在我而 言,美斯是世界上最好的球員,尼馬也很 接近。但在這屆世界盃,所有以球星包裝 的隊伍都出局了。只有真正團結一致去戰 鬥的球隊才能留在這裡。"不過他表明, 自己不會要求克羅地亞死守,而是希望鞏 固防守之餘積極進攻爭取入球

另外,國際足協13日公佈執法決賽的 球證為比坦拿,這位43歲的阿根廷球證曾 執法俄羅斯對沙特阿拉伯的開幕戰。

7月11日,由文牧野導演、寧浩監制、徐 崢監制並領銜主演的電影《我不是藥神》,曝 光情感特輯及雙雄版、離別版兩款新海報。

情感特輯真實記錄了電影主創們在拍攝期間,充滿友愛的片場歡樂氛圍,兩款新海報則分別展現了角色之間的矛盾和人物內心的抉擇與掙紮。自7月5日上映6天以來,《我不是藥神》累計票房17.11億,累計觀影總人次超過4890萬。

特輯中,主創們壹改戲中嚴肅沈浸狀態, 有隨性地跳著"自創舞步"的,有對著鏡頭 "賣萌"撒嬌的,更有回憶起相處片段,不禁 潸然淚下的,主創們的惺惺相惜令人動容。

電影裏"治愈小隊""組團打怪"的相互

扶持,延伸到了戲外,宛如壹個大家庭的氛圍 ,正如徐峥所言:"這是壹個對的劇組,在片 場的時候,分不清哪些是屬於演員個人的,哪 些是屬於角色的,我們更像是生活在壹起的。 "譚卓也感慨:"每個人缺壹不可。"

此次,與情感特輯壹同發布的還有雙雄版和離別版兩款海報。在雙雄版海報中,畫面被分割成爲明暗兩部分,徐崢居於明處,周壹圍居於暗處。分明的光線對比,暗示了兩人所處相反立場,爲兩人的矛盾與沖突埋下了伏筆。在另壹款離別版海報中,搖下壹半的車窗中映出了"治愈小隊"的成員,昂首而充滿希望;但是車窗後的徐崢,卻愁眉深鎖,似要告別眾人,與"治愈小隊"漸行漸遠。
