## U.S. tries to woo India away from Russia with display of F-35s, bombers

BENGALURU, Feb 17 - The United States brought its most advanced fighter jet, the F-35, to India for the first time this week alongside F-16s, Super Hornets and B-1B bombers as Washington looks to woo New Delhi away from its traditional military supplier, Russia.

India, desperate to modernise its largely Soviet-era fighter jet fleet to boost its air power, is concerned about Russian supply delays due to the Ukraine war and faces pressure from the West to distance itself from Moscow.

The American delegation to the week-long Aero India show in Bengaluru, which ends on Friday, is the biggest in the 27-year history of the show and underlines the growing strategic relationship between the United States and India.

In contrast, Russia, India's largest weapons supplier since the Soviet Union days, had a nominal presence. Its state-owned weapons exporter Rosoboronexport had a joint stall with United Aircraft and Almaz-Antey, displaying miniature models of aircraft, trucks, radars and tanks.

At previous editions of the show, Rosoboronexport had a more central position for its stall, although Russia has not brought a fighter jet to Bengaluru for a decade after India began considering more European and U.S. fighter jets.

Boeing (BA.N) F/A-18 Super Hornets have already entered the race to supply fighter jets for the Indian Navy's second aircraft carrier and Lockheed Martin's (LMT.N) F-21, an upgraded F-16 designed for India unveiled at Aero India in 2019, are also being offered to the air force.

A \$20 billion air force proposal to buy 114 multi-role fighter aircraft has been pending for five years, brought into sharp focus by tensions with China and Pakistan.

The F-35 is not being considered by India "as of now", according to an Indian Air Force (IAF) source, but the display of two F-35s at Aero India for the first time was a sign of New Delhi's growing strategic importance to Washington.

It was "not a sales pitch" but rather a signal to the importance of the bilateral defence relationship in the Indo-Pacific region, said Angad Singh, an independent defence analyst.

"Even if weapons sales aren't the cornerstone of the relationship, there is a cooperation and collaboration at the military level between India and the U.S.," he added.

The United States is selective about which countries it allows to buy the F-35. When asked if it would be offered to India, Rear Admiral Michael L. Baker, defence attache at the U.S. embassy in India, said New Delhi was in the "very early stages" of considering whether it wanted the plane.

An IAF spokesperson did not respond to a request for comment on its interest in F-35s.

Ahead of the show, Russian state news agencies reported that Moscow had supplied New Delhi with around \$13 billion of arms in the past five years and had placed orders for \$10 billion.

The United States has approved arms sales worth more than \$6 billion to India in the last six years, including transport aircraft,

Apache, Chinook and MH-60 helicopters, missiles, air defence systems, naval guns and P-8I Poseidon surveillance aircraft.

India also wants to manufacture more defence equipment at home in collaboration with global giants, first to meet its own needs and eventually to export sophisticated weapons platforms.

## Three Islamists, two others killed in storming of Karachi police station

KARACHI, Pakistan, Feb 17 (Reuters) - Islamists stormed a police station in the southern Pakistani city of Karachi on Friday, killing two people in a hail of gunfire and a series of loud explosions before they themselves were killed, officials said.

Security forces retook the building after several hours and killed three militants, a government spokesman said. Police commandoes and a bomb disposal squad entered the building and a security sweep was under way.

Two people had been killed and 11 wounded in the militants' attack, a government spokesman said.

A huge explosion was heard inside the station after a series of blasts when it was first attacked.

The Pakistani Taliban, or Tehreek-e-Taliban Pakistan (TTP), took responsibility for the attack in a message sent by their spokesman to journalists.

The station houses offices of the city's most senior police. Deputy Inspector General Irfan Baloch told Reuters there could have been up to 30 police at the station at the time of the attack. Myanmar parallel government asks U.S. for more sanctions, funding for anti-junta forces Without naming BBC, India cites evidence of media firm's unpaid tax Former bodyguard arrested over shooting of Afghan female ex-MP Thai PM to dissolve parliament before term ends next month The Islamist TTP, separate from the Taliban ruling neighbouring

Afghanistan, has recently increased attacks on police in the northwest of Pakistan as part of its campaign against the government in Islamabad.

Overseas cricket players are competing in the Pakistan Super League, and Karachi is one of the host cities. There is a game scheduled for Saturday. The police station is located along the route to the stadium and the players' hotel is a few kilometres away. Top teams shunned Pakistan for years after six policemen and two civilians were killed in a 2009 attack on a bus carrying the Sri Lankan cricket team in Lahore. Police sealed off traffic on the main thoroughfare through Karachi and heavy contingents of security forces, including paramilitary soldiers, had arrived at the scene.

# WEA LEE'S GLOBAL NOTES

02/17/2023

## Our Dear Friend Commissioner Cagle Is Now Our Attorney

We had a Beijing duck dinner with Commissioner Cagle after he lost the election. We tried to comfort him by saying that, "To win or lose is still not unusual."

I personally knew Commissioner Cagle not more than one year ago because of the redistricting of the County. His district changed to include the International District. For a Republican, that made it more difficult for him in this part of county and in last November's election he lost the seat.

Just last August, Cagle approved the building of an Asian style pavilion in our district. It is still expected to be completed within a year. Unfortunately, he will not be the person who will cut the ribbon when the structure is opened.

Cagle is a Republican. He served as a Judge for 22 years and as a Harris County Commissioner for 8 years. He has so many Chinese Asian friends, including his assistant who was a female Chinese American lawyer.

In our meeting Cagle said that he is still very concerned about our community and told me he is going to continue to support us.

We decided to hire him as our attorney. He readily accepted our offer. I joked with him that from now on, we will need his protection.

Cagle told me that even though he lost the election, he is now making more money and has more time with his family.

**“We Need To Be Prepared For The Inevitable, That A Quarter Of The Country Will Soon Fall Inside The Extreme Heat Belt With Temperatures Exceeding 125 Degrees Fahrenheit And The Results Will Be Dire.”**

**Study: ‘Extreme Heat Belt’ Will Soon Impact Over 100 Million Americans**

**AMERICA’S “EXTREME HEAT BELT”**

Compiled And Edited By John T. Robbins, Southern Daily Editor

**Key Points**  
*A heat model released Monday by researchers from the non-profit group First Street Foundation estimates heat risks at the property level across the U.S. Researchers found the local hottest seven days of any particular area are expected to become the hottest 18 days over the next 30 years. By 2053, 1,023 counties could experience heat index temperatures above 125 degrees.*

As record-high temperatures recently swept across several parts of the U.S. this summer, new data on heat risks forecast an “extreme heat belt” will emerge in large parts of the country by 2053.

The heat model released Monday by researchers from the nonprofit group First Street Foundation estimates heat risks at the property level across the U.S. and how the intensity of hot days will change over the next three decades. The model identified the seven hottest days for any property this year and used that metric to determine how many of those days would occur in 30 years.

Researchers found the local hottest seven days of any particular area are expected to become the hottest 18 days over the next 30 years. Miami-Dade County may experience the most dramatic shift in temperature, where the region’s seven hottest days, which include heat index temperatures at 103 Fahrenheit degrees, could increase to 34 days a year at that temperature by 2053.

The states expected to see the largest increase in dangerous temperatures are Texas, Arkansas, Louisiana, Missouri and Florida.

According to the model, an “extreme heat belt” will encompass an area stretching from Texas and Louisiana to Illinois, Indiana and even parts of Wisconsin. By 2053, 1,023 counties could experience heat index temperatures above 125 degrees, an area home to more than 107 million that covers a quarter of U.S. land area. The model also estimates that just next year, 50 counties are expected to see temperatures beyond that figure.

“Increasing temperatures are broadly discussed as averages, but the focus should be on the extension of the extreme tail events expected in a given year,” Matthew Eby, founder and CEO of First Street Foundation, said in a statement. (see below.)

“We need to be prepared for the inevitable, that a quarter of the country will soon fall inside the Extreme Heat Belt with temperatures exceeding 125 degrees Fahrenheit and the results will be dire,” Eby said.

Along with the report, the nonprofit has made an online tool available for users to search U.S. addresses and see their estimated heat risk. (<https://riskfactor.com/>)

com/)  
**Learn How Risks Are Calculated**  
A property’s Flood Factor, Fire Factor, and Heat Factor indicate its comprehensive risk from flooding, wildfire, or extreme heat ranging from 1 (minimal) to 10 (extreme).

**Flood Factor**  
Flood Factor® considers flooding from rain, rivers, tidal, and storm surge to determine the risk of water reaching the building over a 30-year period.

**Fire Factor**  
Fire Factor® considers the property’s building materials, and distance to fire risk areas, and burnable materials, such as vegetation, to determine the risk of being impacted by wildfire.

**Heat Factor**  
Heat Factor™ considers the property’s distance to water, land use, and relative elevation to determine the severity of extreme heat at the property and calculate the cost of staying cool.

**Risk Factors Across The United States**  
As featured in the New York Times  
“For too long, we have let people live in communities, and even attracted them to join a community, while keeping them in a state of

ignorance about the risk that they’re under.” Source: “Here is the first-ever map showing wildfire risk to American homes.” **National Association of Realtors®**  
“Flood Factor enables our members to become the source of the resource. It increases transparency. It’s really about giving them accurate information so they can make a great decision. It builds trust and confidence with clients. It’s a valuable tool to access information.”

**From the Wall Street Journal**  
“The model from the nonprofit First Street Foundation represents the first attempt to make property-level wildfire-risk scores freely available.”

Source: “Tens of millions of U.S. properties face wildfire risk, new study says.”

**Statement From The First Street Foundation**  
**First Street Foundation Finds an emerging “Extreme Heat Belt” will Impact Over 107 Million Americans by 2053**

FOR IMMEDIATE RELEASE Brooklyn (NY) — (August 15, 2022) - First Street Foundation today released their peer-reviewed extreme heat model along with the implications highlighted in The Sixth National Risk Assessment: Hazardous Heat. The report identifies the impact of increasing temperatures at a property level, and how the frequency, duration, and intensity of extremely hot days will change over the next 30 years from a changing climate. The Foundation’s analysis combines high-resolution measurements of land surface temperatures, canopy cover, impervious surfaces, land cover, and proximity to water to calculate the current heat exposure, and then adjusts for future forecasted emissions scenarios. This allows for the determination of the number of days any property would be expected to experience dangerous levels of heat. The model highlights the local impacts of climate change by identifying the seven hottest days expected for any property this year, and using that metric to calculate how many of those days would be experienced in 30 years.

**2053 AT LEAST ONE 125 DEGREE DAY**

The most severe shift in local temperatures is found in Miami-Dade County where the 7 hottest days, currently at 103°F, will increase to 34 days at that same temperature by 2053. Across the country, on average, the local hottest 7 days are expected to become the hottest 18 days by 2053. In the case of extreme heat, the model finds 50 counties, home to 8.1 million residents, that are expected to experience temperatures above 125°F in 2023, the highest level of the National Weather Services’ heat index. By 2053, 1,023 counties are expected to exceed this temperature, an area that is home to 107.6 million Americans and covers a quarter of the US land area. This emerging area, concentrated in a geographic region the Foundation calls the “Extreme Heat Belt,” stretches from the Northern Texas and Louisiana borders to Illinois, Indiana, and even into Wisconsin.

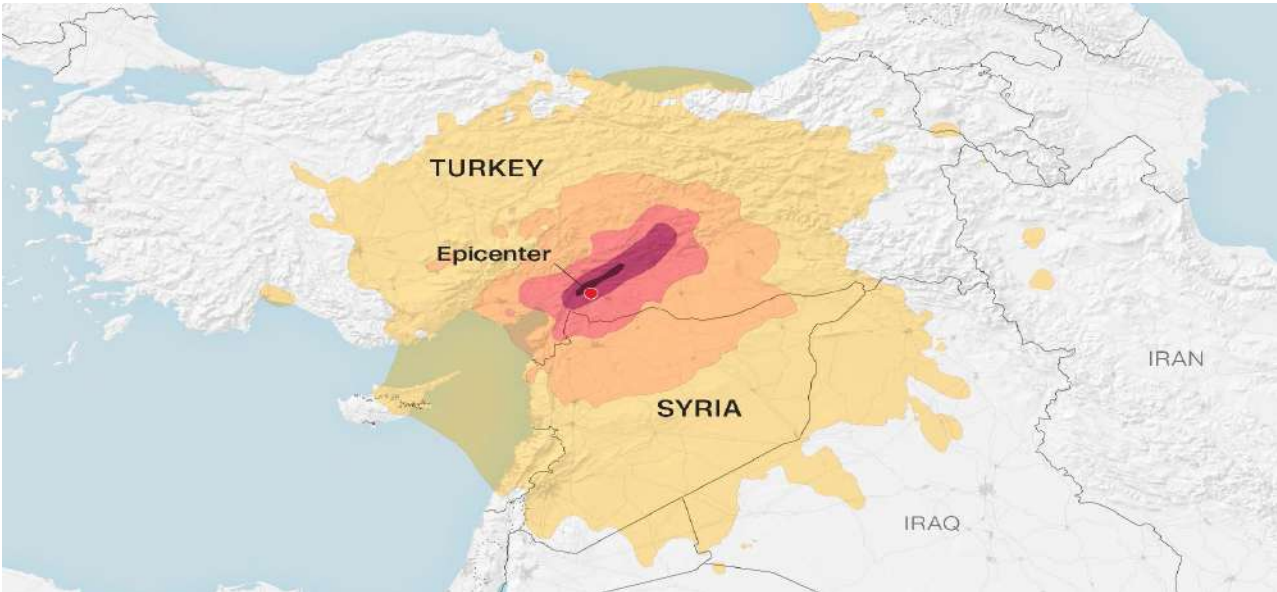

“Increasing temperatures are broadly discussed as averages, but the focus should be on the extension of the extreme tail events expected in a given year,” said Matthew Eby, founder and CEO of First Street Foundation. “We need to be prepared for the inevitable, that a quarter of the country will soon fall inside the Extreme Heat Belt with temperatures exceeding 125°F and the results will be dire.” The peer-reviewed First Street Foundation Extreme Heat Model will now be incorporated with Risk Factor for every property in the contiguous United States. Visitors to Risk Factor will find their Heat Factor alongside their Flood Factor and Fire Factor and can learn the specific risks to their property, today and up to 30 years into the future. ### First Street Foundation First Street Foundation is a nonprofit 501(c)(3) research and technology group working to define America’s growing climate risk. **The Deady, Devastating, Staggering And Tragic Earthquake Catastrophe That Ravaged Turkey And Syria**

Compiled And Edited By John T. Robbins, Southern Daily Editor

**Turkey And Syria Showing The Epicenter Of The Earthquakes.**

A powerful 7.8 magnitude earthquake struck southeastern Turkey and northern Syria early Monday. Over 30,000 people have died, according to the Associated Press. Rescue workers are still searching for people who are trapped in collapsed buildings. The area has also felt at least 55 major aftershocks, according to the U.S. Geological Survey.

# 完整修車廠《修車師姐》徐云專欄57 汽車自診系統

自從上個世紀80年代起，美、日、歐等各大汽車製造企業就已經開始在其生產的電噴汽車上配備了發動機自診斷系統，簡稱OBD。可以說，OBD給維修人員的診斷檢修工作帶來了空前的便利。現在更為先進的OBD III已經誕生了，它不但可以具有OBD II對汽車排放的監測，還可以強行對違規的汽車進行干涉。

那麼這套發動機自診斷系統到底是怎樣工作的呢？這個問題主要歸宿於汽車發動機的燃油供給系統。由於現在的汽車已經全面發展為電噴發動機，它具備了化油器發動機所無法比及的一些優點。同時也由於電噴發動機的燃油噴射系統是電子控制的，不同於化油器的純機械式，所以在這個系統裡面就被設置了很多電子的傳感器來採集燃油供給所需要的信息，然後傳給ECU（車載電腦），以便精準的控制燃油的供給。那麼都有哪些信息是ECU所需要採集的呢？由於整個控制系統是一個閉環的控制，所以首當其衝的是進氣量和排氣是兩個重要的採集信息，其他的信息還包括了：節氣閥的位置、進氣的溫度、曲軸的轉速、曲軸的相位、進氣氣壓以及水溫。其中進氣量是由空氣流量傳感器來檢測的，排氣是由氧傳感器來檢測的，其他的一些信息也都是有相應的傳感器來檢測，他們主要是通過一些簡單的設施產生相應的模擬信號，然後在通過把模擬信號轉化成ECU可以識別的數字信號來進行檢測。下面我們將詳細介紹幾個傳感器出現問題後的OBD的工作情況：

首先是對發動機運轉最為重要的空氣流量計，空氣流量計分為量板式、熱線式和超聲波式三種。前兩種都是由電阻控制，

後一種則根據超聲波控制。如果此時空氣流量計出現了故障，例如始終是檢測出一種較高的進氣量，那麼當此時的進氣量很小的時候，其他的傳感器都檢測出了正常的信息，而空氣流量計卻始終檢測出較高的進氣量，這時ECU就會認為空氣流量計出現了故障，並啟動了已經預存的一個正常的信息值，而這個空氣流量計的故障代碼就會存在ECU的內存裡面。與之同時在儀錶盤上的故障燈就會亮起，以警示駕駛者，有時甚至不能正常駕駛。OBD為維修人員的診斷檢修工作帶來了極大的便利，所以這時就需要駕駛者把車開到正規的維修站就可以了。維修人員首先要解碼器接到汽車的ECU上進行讀碼，就是把代表故障碼的數字信息轉化成代表出現故障傳感器的代碼。然後在清除故障碼，只有清除了故障碼儀錶盤的故障燈才會滅掉。否則雖然排除了故障，但是OBD裡依然存儲著故障信息，同樣會認為有故障。如果解碼器沒有帶有自動清除功能的話，也只需把電瓶線拔下來斷電後就清除了。通過解碼維修人員就可以知道了是那個傳感器出現了問題，這裡我們假設的是空氣流量計出現了故障，那麼讀出來的故障碼就是代表空氣流量計的代碼。然後維修人員就可以對症下藥，進行維修或更換。這樣汽車就可以繼續正常行駛了。

同樣氧傳感器出現故障以後同空氣流量計一樣，儀錶盤的故障燈也亮起。由於排氣的檢測是對整個燃油供給的系統正常工作的一個信息回饋，所以對於該系統的正常工作的作用。然而當它出現故障後，ECU雖然可以臨時調用一個備用的數據信息，但是同樣會很嚴重的影響到發動機的正常工作的，甚至影響尾氣排放而低於OBD規定的排放標準，這是OBD還

會進行報警，已警示駕駛員。但是對於故障的處理同樣是解碼、讀碼、清除故障碼、維修。

相對於空氣流量計和氧傳感器而言，其他的傳感器在出現故障時在ECU裡備用的其對應正確信息會起到很大作用。由於在進氣量和排氣方面都可以以時時檢測到正確的信息，所以就不至於嚴重影響到發動機的工作，但是OBD同樣會工作，儀錶盤的故障燈也會亮起，以警示駕駛員出現了故障。而處理方式同樣是通過解碼和讀碼查到是哪個傳感器出現了故障，然後清除故障碼，進行維修。

通過以上的闡述是不是感覺OBD是一個很簡單又很實用的一個系統？其實它就像是我們中國博大精深的中醫學一樣，可以根據“望聞問切”來斷定疾病的源頭。這裡就是故障等亮起警示駕駛者就類似與中醫門診中的“望”和“聞”，而解碼讀碼的過程就更是中醫的號脈了。然後“對症下藥，藥到病除”。

## 谨诚会计师事务所赵广华会计师 专栏3 ---公司类型转换

公司轉換主要有三種類型，公司類型轉換、跨州公司轉換及稅務狀況轉換。本文主要簡單介紹公司類型轉換。

公司類型轉換是由會員制的限責任公司轉換成股東制的公司，即

LLC轉換成Corporation。在公司最初成立的時候沒有意識到公司在將來的某一天有上市的需求，所有就成立了會員制的有限責任公司，LLC。但公司的業務日新月異，蒸蒸日上。業務量擴大，勢必需要大量的資金，上市是融資的最佳方式。這時公司類型轉換就勢在必行了。

美國是聯邦制的國家，各州有各自的公司法，每個州轉換的過程及所需文件不盡相同。但無論哪一個州，有限責任公司的會員首先投票，批准轉換為公司，LLC的大多數會員必須同意轉換。會員必須就轉換的條款和條件達成一致，包括將有限責任公司的會員權益轉換為公司法人所有權的方式。之後起草一份新的公司章程和轉換聲明。大多數數州的州務秘書辦公室不提供轉換公司章程的表格，係自擬格式，

包括新公司的名稱、目的陳述、公司代理人的姓名和地址、公司授權發行的股份數量和轉換錄。將簽署的公司章程及轉換聲明連同相應的費用提交給州務秘書辦公室。經州務秘書辦公室核實並審批後，正式文公司轉換證書會發放下來，完成州內程序。將原始公司的資產及債務轉換到新的公司，將所有的會員轉成股東。

有的州會自動將原始的有限責任公司LLC解體，有的州需要原LLC會員自行填寫表格解體LLC。無論哪種形式解體原有公司，新成立的公司需要完成以下步驟：

- 創建新的公司章程
- 選舉公司董事及公司管理人員
- 舉行初次董事局會員並做好會員紀要
- 簽發股東證書

• 申請新的公司稅號  
一旦公司轉換成功，公司的各項日程必須嚴格化，舉行定期的董事及股東會議，歸檔存儲會議紀要，每年向州務秘書辦公室申報公司董事的人員變化。這些是與會員的有限責任公司不同的地方。會員責任有限公司在這些方面的管理會更隨意些。公司日常業務可以會員或第三方管理，不需要嚴格的董事及股東會議。年審只需要申報一下基本的信息即可。

在稅務方面，會員制有限責任公司可以有四種稅務申報選擇，單獨會員個稅下的Schedule C、合夥人形式（partnership 1065）、S corporation和C corporation。股東公司只有兩種報稅形式：S corporation 1120S和C corporation 1120。

由此可見維持一個股東公司的

工作量遠遠大於維持一個會員制的有限責任公司。如果您沒有文章開頭的融資需求，將LLC轉換成股東公司是得不償失的。LLC形式並不會阻撓公司的發展，很多大型的公司依然保持著LLC的形式。所以公司轉換之前一定要仔細斟酌。一般情況下，公司類型轉換不會產生稅務問題。但是如果在資產轉換的過程中有偏差或者新公司的股東不再是原會員有限責任公司的會員，就會產生稅務問題。所以公司類型轉換最好是原班人馬、原套設備。

# 中華文化學院春節聯歡

元月二十八日，星期六，中華文化學院舉辦全校二零二三年全校春節聯歡大會。從上午十點開始，由主持人胡美健和桑季博開長場，首先歡迎休士頓

華僑文教中心黃依莉副主任致詞，其次由黎淑英僑務諮詢委員上台講話，她當天很興奮，因為她的兩個孫女都在中華文化學院上中文。接著是由董事長何有靜，校長孫惠美致歡迎及感謝之意。緊接著就是家長們期待已久的孩子們精彩表演，是由高班同學潘鴻璋和周筠真主持。

各班表演曲目有：三字經，小老虎愛跳舞，唐詩朗誦，拔蘿蔔，新年好！小白兔，我的朋友在哪裡，猜燈謎，歡樂賀兔年，新年主曲歡唱，繞口令，夜空中最亮的星星，樂器演奏，謎語大家猜，歌曲合唱戀愛ing，十二生肖鼠來寶。各式各樣的才藝都傾囊而出，有兒歌、合唱、舞蹈、吟詩、猜謎、樂器演奏、打竹板、短劇。所有的表演都好可愛，深得家長和來賓的讚賞。老師和家長們都紛紛上前拍照，希望把難得的影相留在手機裡，把美好的記憶留在腦海裡。

中午有家長會籌辦的春節聚餐，菜式豐盛，老老少少都吃得萬分滿意。家長會還請了專業魔術師來做魔術表演，孩子們在驚嘆之中，歡樂洋溢。

家長和小朋友們都樂翻了天。緊接著是摸彩項目，禮品豐富，幾乎人人有獎！此時全場興奮達到了高潮！最後的大獎是紅包，現金的誘惑，令全場穩坐聆聽抽獎叫號，無人早退。直到所有的獎品都被大家歡天喜地抱回家，春節聯歡大會至下午一時點半圓滿結束。中華文化學院渡過了一個極其歡樂的春節聯歡！Y
